

Recycling in Borettslaget 4Blocks

To avoid problems with our garbage containers and the surrounding area due to pests, unwanted smell, or other problems, all tenants of Borettslaget 4 Blocks must adhere to these rules regarding garbage disposal. The rules are based on regulations from Oslo Municipality. **The containers are only to be used by tenants in Borettslaget 4Blocks.**

Recycling

We have two types of garbage containers: Cardboard & Paper (the four containers closest to the back yard), and Unsorted Garbage (the six containers closest to the gate).

Unsorted

What is left after you have sorted out paper, glass, metal packaging, textiles, and hazardous materials. **NOTE: hazardous materials MUST be handed in at a recycling station.**

Cardboard & Paper

All newspapers, paper advertisement, carton, drinking cartons (properly rinsed), and cardboard. Cardboard & paper waste must not be soiled by food or any other substances, it should not be packaged in anything not considered Cardboard & Paper, and all boxes etc. must be emptied of Styrofoam, plastics or other. The waste must be packaged flat in the container.

All waste not meeting criteria for Unsorted or Cardboard & Paper, like furniture, electrical appliances, clothes, construction waste, paint, or other, must not be disposed of in our waste containers, but instead handed in at a recycling center.

For more information see:

www.renovasjonsetaten.oslo.kommune.no

4Blocks will regularly have containers available for all tenants. See website for more information.

Questions, problems, or container schedule? Visit our website, or get in touch with the board at: www.4blocks.no

Best regards, The Board of Borettslaget 4Blocks.
